DESCRIPTION OF DEFENSE BASE ACT (DBA) COVERAGE

DBA coverage is worker's compensation insurance which provides that employees may collect in the event that an employee is injured while working on a contract financed by the U. S. Government and performed outside the U.S. DBA coverage also pays benefits to dependents of employees in the event that an employee is killed as a direct result of the employee's employment under a U.S. Government financed contract. DBA coverage is required by statute for employees of contractors and subcontractors regardless of the duration of their assignment. It is over and above any State coverage. Subcontracts under USAID financed contracts are also included in the required coverage.

Personal Services Contractors (PSCs) are exempt from Defense Base Act coverage. PSCs are treated like direct-hire employees for worker's compensation purposes and are covered by the Federal Employees Compensation Act.

The Defense Base Act does not apply to grants and cooperative agreements or sub-contracts or sub-grants under assistance instruments.

WAIVER OF COVERAGE

DBA insurance coverage is required for employees of contractors (and their subcontractors) unless a waiver has been obtained from the U.S. Department of Labor (See FAR 28.305). Blanket Waivers from Defense Base Act insurance requirements have been issued by the Department of Labor for foreign nationals in over 100 countries in which USAID has or had programs. Foreign national employees covered by this waiver are exempt from the requirement to secure Defense Base Act Insurance but must be provided worker's compensation benefits as prescribed in applicable foreign laws. However, the waivers do not apply to any employee who is:

1. A citizen of the United States;
2. A resident of the United States; or,
3. Hired in the United States.

The attached DBA Waiver List (Attachment 2) identifies all countries for which foreign national employees are exempt from the requirement to secure Defense Base Act coverage.

CONTRACT CLAUSE

As prescribed in AIDAR 728.309, the supplemental coverage at AIDAR 752.228-3 is to be added to the clause specified in FAR 52.228-3 by the USAID Contracting Officer.
